

The F.C.C. should limit the amount of ownership of any one market and strict limits on the number of stations owned by any single entity. ClearChannel Communications has completely trashed F.M. radio. It is absolutely horrible. We very definitely need a MUCH greater variety of programming than what is now available. We have morphed into a STATE RUN MEDIA. Thank God for the internet, where I can still find truth and objectivity, something completely lacking on the PUBLIC airwaves. Thank you for the opportunity. I only hope it does some good.
